LEGAL STARTUP LAB

Annually, we curate a dedicated course for students centered around startups. We firmly believe that through this initiative, we not only contribute to the progress of our countries but also nurture and retain exceptional young talent.

FREQUENTLY ASKED QUESTIONS

What topics does the course cover?

This year's cohort is delving into the dynamic world of startups, honing the skills needed to establish a company and secure transformative investments! The course will encompass:

1. How do startups operate
2. Internal relationships and how to set them up
3. How to find investment and funding for your idea
4. Understanding Term sheets
5. What you need to structure shareholding agreements
6. How do the Venture Capitalists look at startups

When will the next batch start and how long will it be?

- The eagerly anticipated start of our next course year is just around the corner, with classes scheduled to commence in the last week of March 2023

- With sessions taking place every week, you'll have the opportunity to delve deep into the subject matter and emerge with a newfound understanding. Plus, with evening classes, you can easily fit this program into your busy schedule.
- To culminate our learning journey on a high note, we merge the physical and virtual worlds and conduct the ultimate lesson in a hybrid format in Prague and Bratislava.

How will this course impact your self-development?

- With a focus on practical legal practice, you'll learn from the best and gain hands-on experience from young and dynamic startup lawyers.
- Get a competitive edge with our certification – the only one of its kind in Czech Republic & Slovakia, covering cross-jurisdictional aspects from the US, SR, & CZ.
- Stay ahead of the game with the latest trends and innovations in startup law, and enhance your skills for the future of the legal profession.
- Say goodbye to boring theory and hello to real-world application – you'll even practice preparing and negotiating documentation.
- Plus, we're committed to inclusivity and empowering students of all genders, so don't hesitate to join us and take charge of your career!

ADMISSION

Do you have a tech idea that's been brewing in your mind? We want to hear all about it! Our goal is to challenge your thinking and inspire creativity outside of the box.

Envision yourself as the genius behind a groundbreaking tech product that transforms the industry. What does it look like? How does it work? What problems does it solve? Share your vision with us by describing your idea on a single A4

Note: In order for your application to be included in the selection, you have to comply with the scope and the assignment. Also, when completing the task, refrain from seeking assistance from beloved friend ChatGPT.
